

CHEKSHANI CLIFFS NEWSLETTER

Central Iron County Water Conservancy District

FOR PROJECT UPDATES:

There is a page on our website called: Transparency Chekshani Cliffs Water Improvement Project. Found under: <https://cicwcd.org/chekshani-cliffs/>
This page has a timeline of the entire Chekshani Improvement Project process. We will continue to post project updates on this site.

ESTIMATED TIMELINE:

FALL/WINTER 2021

Complete Construction

WINTER 2021 & 2022

Water will be delivered to the Subdivision from the new well. We had hoped that water would be delivered to the subdivision by the end of this month. However, we were just notified by the electrician that they cannot get a transformer until the middle of January.

Water is now expected to be delivered to the subdivision by the end of January or early February 2022.

ASSESSMENT:

Each property in the subdivision will be assessed for the improvement project once it is completed. Current Engineer estimates are \$3,800 per lot. This could vary depending on construction change orders and unforeseen circumstances.
